THELIGHT COLLECTION

11

A CONCEPT INSPIRED BY
A STUNNING LOCATION

An aerial night-time photograph of Penang, Malaysia, showcasing the city's urban landscape and the 'THE LIGHT' waterfront development. The city lights are visible in the background, while the foreground features modern high-rise buildings, a marina with numerous boats, and a large, curved, illuminated structure along the waterfront. The water is dark, reflecting the city lights and the development's glow.

RIDING THE WAVES, PENANG SHINES WITH THE LIGHT.

Dramatic changes are taking place in Penang. All part of a grand plan to position the island state for world recognition. Since its World Heritage Status award in 2000, Penang has arrested worldwide attention as a place to visit, invest, live and enjoy.

Transformation of land into a mega waterfront city like THE LIGHT Waterfront Penang, the rise of office towers, condominiums, shopping centres, designer boutique hotels, cafes, restaurants, bars and galleries are changing the face of Penang with a galvanizing effect.

Once all these plans become reality, imagine the magnetic pull of worldwide interest, dynamic life and unstoppable energy into THE LIGHT and Penang itself.

THE LIGHT AND PENANG STRATEGIC LOCATION, MAGNETIC DRAW.

At the heart of Penang's exciting metamorphosis is THE LIGHT Waterfront Penang by IJM Land Berhad. A mega waterfront development transforming over 152 acres of land on Penang Island's Eastern coastline into a global village that integrates waterfront living with residential, commercial, hospitality and entertainment components in one dynamic hub.

Strategically located next to the iconic Penang Bridge, THE LIGHT gains prominence as a landmark destination. It's a short ride from the airport, with global and regional connections by air via Penang Airport, and is accessible via road, bridge and water links.

GREEN LUNG

IJM Land Berhad is the first developer in Penang to incorporate responsible eco-friendly measures to enhance the environment.

Its greening initiatives include the creation of a promenade green, a seafront park, gardens and dedicated paths for jogging and cycling as well as a linear park for THE LIGHT.

The use of fibre optic cables and green-related technologies, passive design involving natural lighting and cross ventilation for buildings, green roofs to cut heat island effect, rainwater harvesting and coral conservation all contribute to keeping the development sustainable.

By taking on a pro-active greening role, IJM Land Berhad aims to acquire the Malaysia Green Building Index (GBI) certification. This certification is awarded in recognition of buildings/developments that incorporate energy-efficiency, healthier indoor environment, water savings, better connectivity to public transport and adoption of recycling and green features.

To date, IJM Land Berhad has already received provisional GBI certification for 4 of THE LIGHT's residential developments: THE LIGHT LINEAR, THE LIGHT POINT, and THE LIGHT COLLECTION I & II.

MASTER PLAN

THE LIGHT Waterfront Penang will have an upmarket and luxurious resort living enclave, a Commercial City incorporating a Waterfront Mall with dining promenade, a promenade green and amphitheatre, a Convention Centre, a Performing Arts and Cultural Centre, a Mixed Commercial Mall, hotels, residences, a Marina and a Business District, and eventually a Seafront Park.

PHASE ONE
RESIDENTIAL

PHASE TWO
MIXED DEVELOPMENT

PHASE THREE
SEAFRONT PARK

THE LIGHT COLLECTION IV LIFESTYLE

Your home, be it a condominium with a spiral staircase and rooftop garden, is a rare, contemporary living gem. Created for the ultimate in waterfront living, your residence is a celebration of light, space, water and greenery coming together to evoke beauty, exclusivity and relaxed luxury.

Residents here are safety-assured within a double-gated, security-guarded community. Everything that THE LIGHT Waterfront Penang has to offer is just steps away: the biggest and best in integrated residential, shopping, dining, recreational, commercial waterfront living in one lifestyle hub; a regional catchment of urbanites bringing dynamic social, economic and business opportunities into its community; an eco-friendly environment contributing to the well-being of its occupants; an international address similar to that of other iconic waterfront developments in the world.

WATERFRONT SPLENDOUR, LIFESTYLE DAZZLE.

The Condominium

Only 5-storeys high, yet striking in a unique 3 blocks arrangement, The Condominium dazzle with hidden lifestyle gems waiting to be discovered.

Designed to capture the best of urban living pleasures within a waterfront splendour setting, the 79 premier condominiums are a shining example of how luxury living embracing sustainability can work wonders for the environment, whilst pampering the wishes of discerning homeowners.

Every condominium here is green, with energy-saving and carbon-reducing features showcasing innovative architectural and interior elements that elevate waterfront living to a new world-class high.

Room spaciousness give that 'larger-than-life feeling'. The luxury of solid timber flooring, designer bathroom and thoughtful kitchen design underscore a finishing touch of uncompromising quality.

The last in the magnificent five of THE LIGHT COLLECTION residential series, THE LIGHT COLLECTION IV truly shines in every aspect of 21st century waterfront living experience.
